

SpotOptics

Accurate metrology for R&D and industry

iOptino

2-channel autocollimating wavefront sensor

- Wavefront sensing: 75x75 spots. Imaging field 1.7°
- CMOS autocollimator: 0.5" accuracy

- Compact and light weight
- Precision of Zernike coefficients: $\pm 1/3000$
- Precision of computed WF (rms): $\pm 1/1000$
- Dimensions: 150mm x 100mm x 50mm. Weight: 400gm
- High computational speed: 10 Hz (WF channel)
- High computational speed: 100 Hz (Imaging channel)
